

GDS Coding Workflow (lectures + exercises)

1. Save files to *folder of your choice*
 - a. Files for lectures: zip folder on LearnIT
 - b. Files for exercises: GitHub repository https://github.com/anerv/GDS2022_exercises
2. Navigate to *folder of your choice* in the terminal
3. "Run Python" (depending on your OS – see “Run Python” sections in https://gds1-ul.github.io/soft_install/)
4. Open Jupyter notebook from *folder of your choice* in Jupyter Lab
